MOCK TEST PAPER 1

INTERMEDIATE : GROUP – II

PAPER – 5: ADVANCED ACCOUNTING

ANSWERS

1. (a) (i) X Ltd., Y Ltd. & W Ltd. are related to each other. Z Ltd. & W Ltd. are related to each other by virtue of associate relationship. However, neither X Ltd. nor Y Ltd. is related to Z Ltd. and vice versa since neither control nor significant influence exists between them.

(ii) Himalaya Ltd. and Aravalli Ltd are related parties since key management personnel of Himalaya Ltd. ie. its managing director holds 80% in Aravalli Ltd. and hence disclosure of transaction between them is required irrespective of whether the transaction was done at normal selling price. Hence the contention of Chief Accountant of Himalaya Ltd that these sales require no disclosure under related party Transactions, is wrong.

(b) (i) Shoes sent to Mohan Shoes (consignee) for consignment sale

In case goods are sent for consignment sale, revenue is recognized when significant risks of ownership have passed from seller to the buyer.

In the given case, Mohan Shoes is the consignee i.e. an agent of Tonk Tanners and not the buyer. Therefore, the risk and reward is considered to vest with Tonk Tanners only till the time the sale is made to the third party by Mohan Shoes; although the goods are held by Mohan Shoes. Hence, in the year 2021-2022, the sale will be recognized for the amount of goods sold by Mohan Shoes to the third party i.e. for ₹ 3,20,000 x 75% = ₹ 2,40,000.

(ii) Sale/repurchase agreements i.e. where seller concurrently agrees to repurchase the same goods at a later date

For such transactions that are in substance a financing agreement, the resulting cash inflow is not revenue and should not be recognised as revenue in the year 2021-2022. Hence, sale of ₹ 4,50,000 to Shani Shoes should not be recognized as revenue.

(iii) Delivery is delayed at buyer's request

On 21st March, 2022, if Shoe Shine takes title and accepts billing for the goods then it is implied that the sale is complete and all the risk and rewards of ownership has been transferred to the buyer. In case no significant uncertainty exists regarding the amount of consideration for sale, revenue shall be recognized in the year 2021-2022 irrespective of the fact that the delivery is delayed on the request of Shoe Shine.

(c) As per para 27 of AS 17 'Segment Reporting', a business segment or geographical segment should be identified as a reportable segment if:

(i) Its **revenue** from sales to external customers and from other transactions with other segments is 10% or more of the total revenue- external and internal of all segments; or

(ii) Its segment **result** whether profit or loss is 10% or more of:

(1) The combined result of all segments in profit; or

(2) The combined result of all segments in loss,

whichever is greater in absolute amount; or

(iii) Its segment **assets** are 10% or more of the total assets of all segments.

Further, if the total external revenue attributable to reportable segments constitutes less than 75% of total enterprise revenue, additional segments should be identified as reportable segments even if they do not meet the 10% thresholds until at least 75% of total enterprise revenue is included in reportable segments.

Accordingly,

(a) On the basis of **revenue from sales** criteria, segment A is a reportable segment.

(b) On the basis of the **result** criteria, segments A & E are reportable segments (since their results in absolute amount is 10% or more of ₹ 100 crore).

(c) On the basis of **asset** criteria, all segments except E are reportable segments.

Since all the segments are covered in at least one of the above criteria, all segments have to be reported upon in accordance with AS 17.

Hence, the opinion of chief accountant that only segment 'A' is reportable is wrong.

(d) As per AS 14, 'Accounting for Amalgamations' consideration for the amalgamation means the aggregate of shares and other securities issued and payment made in form of cash or other assets by the transferee company to the shareholders of the transferor company.

Working Notes:

1.	**Valuation of Goodwill**	₹
	Average profit	1,24,400
	Less: 8% of ₹ 8,80,000	(70,400)
	Super profit	54,000
	Value of Goodwill = 54,000 x 4	2,16,000
2.	**Net Assets for purchase consideration**	
	Goodwill as valued in W.N.1	2,16,000
	Building	3,06,000
	Machinery	5,76,000
	Inventory	1,98,000

	Total Assets	15,30,000
	Less: Trade payables	(3,20,000)
	Net Assets	12,10,000

Out of this ₹ 6,00,000 is to be paid in cash and remaining i.e., (12,10,000 – 6,00,000) ₹ 6,10,000 in shares of ₹ 125. Thus, the number of shares to be allotted 6,10,000/125 = 4,880 shares.

3. Unrealized Profit on Inventory	₹
The Inventory of A Ltd. includes goods worth ₹ 1,00,000 which was sold by B Ltd. on profit. Unrealized profit on this Inventory will be $\frac{40,000}{1,60,000} \times 1,00,000$	25,000
As B Ltd. purchased assets of A Ltd. at a price 10% less than the book value, 10% need to be adjusted from the Inventory i.e., 10% of ₹ 1,00,000.	(10,000)
Amount of unrealized profit	15,000

(b) Calculation of Total Remuneration payable to Liquidator

		Amount in ₹
2% on Assets realized	25,00,000 x 2%	50,000
3% on payment made to Preferential creditors	75,000 x 3%	2,250
3% on payment made to Unsecured creditors (Refer W.N)		39,255
Total Remuneration payable to Liquidator		91,505

Working Note:

Liquidator's remuneration on payment to unsecured creditors = Cash available for unsecured creditors after all payments including liquidation expenses, payment to secured creditors, preferential creditors & liquidator's remuneration

= ₹ 25,00,000 – ₹ 25,000 – ₹ 10,00,000 – ₹ 75,000 – ₹ 50,000 – ₹ 2,250 = ₹ 13,47,750.

Liquidator's remuneration on payment to unsecured creditors = 3/103 x ₹ 13,47,750 = ₹ 39,255

4. (a) Debt Equity Ratio Test

	Particulars	₹
(a)	Loan funds	42,00,000
(b)	Minimum equity to be maintained after buy back in the ratio of 2:1 (₹ in crores)	21,00,000

(e)	Maximum permitted buy back of Equity (₹ in crores) [(d) – (b)] (See Note 2)	38,85,000 (by simultaneous equation)
(f)	Maximum number of shares that can be bought back @ ₹ 30 per share (shares in crores) (See Note 2)	1,29,500 (by simultaneous equation)

Working Note:

1. Shareholders' funds

Particulars	₹
Paid up capital	30,00,000
Free reserves (32,50,000 +6,00,000+4,30,000)	42,80,000
	72,80,000

2. As per section 68 of the Companies Act, 2013, amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method.

   Suppose amount equivalent to nominal value of bought back shares transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y'.

   Equation 1 :(Present equity – Nominal value of buy-back transfer to CRR) – Minimum equity to be maintained = Maximum permissible buy-back of equity

   (72,80,000 –x)-21,00,000 = y (1)

   Since 51,80,000 – x = y

   Equation 2: $\left(\frac{\text{Maximum buy-back}}{\text{Offer price for buy-back}} \text{x Nominal Value}\right)$

   = Nominal value of the shares bought –back to be transferred to CRR

   $$x = \left(\frac{y}{30} \times 10\right) = x$$

   3x = y (2)

   x = ₹ 12,95,000 crores and y = ₹ 38,85,000 crores

(b) Calculation of provision required on advances as on 31st March, 2022:

6. (a) (i) As per AS 29, an obligation is a present obligation if, based on the evidence available, its existence at the balance sheet date is considered probable, i.e., more likely than not.

Liability is a present obligation of the enterprise arising from past events, the settlement of which is expected to result in an outflow from the enterprise of resources embodying economic benefits.

In the given case, there are 75% chances that the penalty may not be levied. Accordingly, Saharsh Ltd. should not make the provision for penalty.

However, a provision should be made for remaining 50% fees of the lawyer in the financial statements of financial year 2021-22.

(ii) Loss due to accident ₹ 30,00,000

Insurance claim receivable by company = ₹ 30,00,000 x 90% = ₹ 27,00,000

Loss to be recognised in the books for 2021-22 ₹ 3,00,000

Insurance claim receivable to be recorded in the books ₹ 27,00,000

Compensation claim by dealer against company to be provided for in the books

= ₹ 30,00,000 x 15% = ₹ 4,50,000

(b) Basic Earnings per share (EPS) =

$$\frac{\text{Net profit attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$

$$= \frac{21{,}96{,}000}{4{,}57{,}500 \text{ Shares (as per working note)}} = ₹\ 4.80 \text{ per share}$$

Working Note:

Calculation of weighted average number of equity shares

As per AS 20 'Earnings Per Share', partly paid equity shares are treated as a fraction of equity share to the extent that they were entitled to participate in dividend relative to a fully paid equity share during the reporting period. Assuming that the partly paid shares are entitled to participate in the dividend to the extent of amount paid, weighted average number of shares will be calculated as follows:

Date	No. of equity shares	Amount paid per share	Weighted average no. of equity shares
	₹	₹	₹
1.4.2021	6,00,000	5	6,00,000 x 5/10 x 5/12 = 1,25,000
1.9.2021	5,40,000	10	5,40,000 x 7/12 = 3,15,000
1.9.2021	60,000	5	60,000 x 5/10 x 7/12 = 17,500
Total weighted average equity shares			4,57,500

OR

As per para 59 of AS 26, subsequent expenditure on an intangible asset after its purchase or its completion should be recognized as an expense. However, if the subsequent expenditure enables the asset to generate future economic benefits in excess of its originally assessed standard of performance or can be measured and attributed to the asset reliably, then such subsequent expenditure should be added to the cost of the intangible asset.

The legal costs incurred for both the trademarks do not enable them to generate future economic benefits in excess of its originally assessed standard of performance. They only ensure to maintain them if the case is decided in favour of the company. Therefore, such legal costs must be recognised as an expense.

Working Note:

Market Price = ₹ 140 per share and stock option price = 50, Hence, the difference 140 – 50 = ₹ 90 per share is equivalent to employee cost or employee compensation expense and will be charged to P&L Account as such for the number of options exercised i.e. 2,400 shares. Hence, Employee compensation expenses will be 2,400 shares X ₹ 90 = ₹ 2,16,000
